EDUCATION

STI COLLEGE

Bachelor of Information
Technology

(2023-2027)

SUMMARY

Motivated Information Technology student with certifications in Java programming and Cybersecurity, and currently preparing for the AWS Certified Cloud Practitioner certification. Strong interest in pursuing a career in cybersecurity with a solid foundation in programming, system security, and problem-solving. Expected to graduate in one year and actively seeking opportunities to gain hands-on IT industry experience through internships, part-time, or entry-level roles prior to graduation.

SOFT SKILLS

- Event Planning
- Communication Skills
- Calendar Management
- Time Management
- Problem-solving and analytical thinking
- Willingness to learn and adapt quickly

TECHNICAL SKILLS

Programming & Development

(2023-2026)

- Java (object-oriented programming, basic application development)
- Basic understanding of algorithms and data structures

Cybersecurity

(2025– 2026)

- Fundamental cybersecurity principles (CIA triad, threat analysis, risk awareness)
- Basic knowledge of network security and system vulnerabilities
- Familiarity with security best practices and safe coding concepts

Networking

(2024– 2026)

- Understanding of TCP/IP, DNS, HTTP/HTTPS
- Basic networking concepts (LAN, WAN, firewalls)
